DESCRIPTION

The Higher Certificate in Paralegal Studies is an entry-level qualification aimed at paralegal professionals who assist lawyers in their legal work.

This Higher Certificate in Paralegal Studies aims to present students with basic knowledge of South African law and its procedures. The flexible structure of this qualification enables candidates to select outcomes that meet the diverse roles and contexts required by a wide range of legal firms, the corporate environment, as well as the public sector.

ARTICULATION POSSIBILITIES

Upon successful completion of the Higher Certificate in Paralegal Studies a student may articulate to the BA Law or BCom Law.

OUTCOMES

After completing the Certificate in Paralegal Studies, qualifying learners will be able to:

1. Demonstrate basic knowledge of South African law and procedure.
2. Conduct legal research on behalf of a legal or paralegal practitioner.
3. Demonstrate the ability to perform basic management tasks in the paralegal environment.
4. Demonstrate the ability to act professionally and with ethical consideration in the paralegal context.
5. Demonstrate knowledge and understanding of the South African social context on a macro and micro scale.

MODE OF DELIVERY - DISTANCE LEARNING (ONLINE DISTANCE)

The programme is offered in STADIO's **Online Distance** mode of delivery. STADIO's distance-learning programmes offer students excellent, quality education, without the requirement of having to attend compulsory venue-based classes. Distance-learning students study with flexibility wherever they are, on a study schedule that suits their circumstances.

Upon registration, distance-learning students receive access to STADIO's state-of-the-art learning management system (Canvas). Students have access to all learning materials on this platform, including a detailed plan for the semester/year indicating all the learning and assessment activities. Study material and any additional teaching resources will be available online. However, students may also request study guides in printed format, if preferred. Students will access, complete, and submit all formative assessment tasks (assignments and tests) online. Summative assessments will mostly be venue-based.

Distance-learning students may also join and participate in scheduled live lecturing sessions online, at critical points during the semester, to integrate concepts and ask questions. These classes will be presented by either the lecturer or an external professional or industry specialist. Recordings of these sessions will be available online. The schedule for the online classes will be available on the learning management system at the start of the semester.

Students will always have access to a module Question and Answer forum, where they can ask questions on the material. The lecturer will respond to their queries in this forum or during the scheduled consultation engagements. All lecturers will have weekly online consultation meetings, where students can join to ask questions or to discuss aspects of the work.

Distance learning is suited to students who want to study from wherever they are, without having to attend classes in person at a venue. Other than the requirement to submit assessment tasks on time, distance learning offers the student flexibility to plan his/her own study schedule. This option is also ideal for working adults, mature learners, or for school-leavers who enjoy learning at their own pace, live distantly from STADIO's campuses, or who have other commitments to attend to during the day. Even though learning happens at a distance, the student still has access to expert lecturers, up-to-date study material and peer engagement via the virtual learning environment. Studying via distance learning is largely enabled through technology. You need access to a computer, as well as internet connectivity, to access and submit your assessments, and to join live sessions or watch recordings online.

MODULE DESCRIPTIONS

DEBT RECOVERY

The purpose of this module is to instil an awareness of the principles of Debt Recovery that will enable fundamental reasoning and the identification and application of the principles that will guide decision-making and action successfully in the legal arena.

END-USER COMPUTING

End-User Computing includes an online training component which allows students to practice simulated MS Office tasks at their own pace, supported by integrated feedback which helps them to identify and remedy their mistakes; and an assessment component which will count towards their overall module result. Students will also complete several assignments in which they will be expected to apply the MS Office tools that they have practiced in the online environment. The module is aimed at learning and practicing skills required by law students and prospective practitioners.

INTRODUCTION TO BUSINESS LAW

The purpose of Introduction to Business Law is to provide students with a general understanding of the South African legal system and law related to business, and to equip students with knowledge, skills, and competencies to analyse and solve basic problems relating to the general principles of business law.

INTRODUCTION TO FAMILY LAW

The purpose of this module is to instil an awareness of the principles of South African Family Law that will enable fundamental reasoning and the identification and application of the principles that will guide decision-making and action to represent clients successfully.

INTRODUCTION TO LABOUR LAW

The purpose of this module is to instil an awareness of the principles of Labour Law that will enable fundamental reasoning and the identification and application of the principles that will guide decision-making and action to represent clients successfully.

INTRODUCTION TO LAW

In this foundational module, first-time law students are introduced to the law as it stands, in accessible terms, with reference to the different sources of law and the classification of the law. In this module, it is demonstrated to students how the law affects the everyday lives of individuals and groups in South Africa. The module exposes students to the complexities of law, the contestability of the law and uncertainties that may exist in the law. Students are further exposed to human rights, legal comparison, aspects of legal language, and critical voices on existing law in order for them to form informed opinions about the law and legal systems. The module also exposes students to the courts, legal profession and the implications of the transformative Constitution of the Republic of South Africa, 1996.

LEGAL PRACTICE MANAGEMENT

The purpose of Legal Practice Management is to provide students with basic knowledge of South African law and its procedures, equipping them with essential managerial skills required within the context of an organisation. The subject blends the theory and office management and administration with practical application tools and techniques. The module guides students through the process of improving their office management and administration skills.

LEGAL SKILLS

In this foundational module first-time law students are equipped with basic legal skills they will need in their studies and in practice. This module exposes students to study skills needed to complete a qualification in law. The module equips students with basic numeracy skills, research skills, readings skills, writing skills, interviewing skills and advocacy skills.
